TEN-23 is for intermediate level firefighters and company officers. When the siren stops and the air brakes lock – it's GO TIME! Learn the TEN key things a COMPANY OFFICER must accomplish within the first TWO minutes of arriving on-scene at a working fire with a crew of THREE. This course is sure to open your eyes and improve your fire ground operations.

"We need to stop trying to be good at making fast decisions and start learning how to make good decisions fast"

Al Rufer, MBA

Here's what they're
